Technical Bulletin
Style 8452 CHEVRON® Vee Rings
and Piston Cups

Materials:	Homogeneous Nitrile Elastomer (90 Duro)
Recommended for use against:	Air, aliphatic solutions, hydrocarbons, water, water in oil
Heat Resistance:	Good
Pressure Rating:	Vacuum to Low
Abrasion Resistance:	Good
Service Temperature:	Minimum -0°F (-17°C) Maximum +225°F (+107°C)
